

PREAMBLE for the ULLWA Club and Skywarn and Emergency Training Net

Note to Net Control Operators- Please make note of the start time, end time, and callsign of each participant.

QST, QST, QST. . . This is (YOUR CALLSIGN)-your acting net control station for this session of the Upper Lake Livingston Wireless Association and Skywarn Emergency Net. My name is (YOUR NAME).

We call this net each Tuesday night at 7:00 p.m. All amateurs licensed to operate on this frequency are invited to check in this evening, and any time emergency conditions are being experienced in the area. We use the 147.04 repeater, with a PL Tone 136.5, linked to the 442.150 repeater, with a PL Tone of 103.5

I will now stand by for any emergency or priority traffic. . .

During severe weather, we ask that you report the following to the net:

1. Tornado or waterspout
2. Funnel cloud
3. Rotating wall cloud
4. Hail of any size
5. Thunderstorm wind gust over 50 mph
6. Thunderstorm damage
7. Flooding of streams or impassable road conditions

When you check in, we ask you give your callsign slowly and phonetically, along with your name and the location you are reporting from. Please do not check in until the previous station has been acknowledged. Following checkins, I will call you back for any comments or information you may have for the net.

I will now take checkins from any mobile, handheld, low power, or in-and-out stations. (Comments for the net).

I will now take checkins from fixed stations. (Comments for the net).

I'd like to thank everyone for checking into the net.

This is (YOUR CALLSIGN), closing the net and returning the repeater back to normal amateur radio operation.

This is (YOUR CALLSIGN) out.

NCOs-Thank you for your time this evening! Please send the net name, times, and callsigns to the Emergency Coordinator immediately following the net.
