

PREAMBLE for the Skywarn and Emergency TRAINING Net

Note to Net Control Operators – Please make note of the start time, the end time and the callsigns of each participant.

QST,QST,QST...This is (YOUR CALLSIGN) - your acting net control station for this session of the Upper Lake Livingston Area Skywarn and Emergency TRAINING net. My name is (YOUR NAME).

We call this net each Tuesday evening at 7:00 P.M.

All amateurs licensed to operate on this frequency are invited to check in with this evening and any time emergency conditions are being experienced in the area.

I will now stand by for any emergency or priority traffic...

During severe weather, we ask that you report the following to the net:

- 1. Tornado or waterspout**
- 2. Funnel cloud**
- 3. Rotating wall cloud**
- 4. Hail of any size**
- 5. Thunderstorm wind gusts over 50 mph**
- 6. Thunderstorm damage**
- 7. Flooding of streams or impassable road conditions**

When you check-in we ask you give your call sign slowly and phonetically, along with your name and the location you are reporting from. Please do not check in until the previous station has been acknowledged. Following check-ins, I will call you back for any comments or information you may have for the net.

I will now take check-ins from any mobile, handheld, low power, or in-and-out stations. (Comments for the net)

I will now check-ins from any fixed stations. (Comments for the net)

I'd like to thank everyone for checking into the net.

This is (your call sign), closing the net and returning the repeater back to normal amateur radio operation.

This is (YOUR CALLSIGN) out.

NOTE to NCOs – Thank you your time this evening! Please send the net name, the times and callsigns to our [Emergency Coordinator](#) immediately following the net.
