

## Preamble for ULLWA Monthly Simplex Net

**Note to Net Control Operators** – Please make note of the start time, the end time and the callsigns of each participant.

QST,QST,QST...This is (YOUR CALLSIGN) - your acting net control station for this session of the Upper Lake Livingston Wireless Association Monthly Simplex Net conducted on 146.52. My name is (YOUR NAME).

We call this net on the last Tuesday of the month immediately following the ULLWA Club net that started at 7:45 P.M.

We established this net as training for emergencies, specifically for events that may have caused a wide-spread outage of all repeaters in the area. All amateurs licensed to operate on this frequency are invited to check in with this evening.

When you check-in we ask you give your call sign (phonetically), your name and the location you are reporting from. This is a directed net. Please do not check in until the previous station has been acknowledged. Following check-ins, I will call you back for any comments or information you may have for the net.

PLEASE understand that I may not be able to hear a specific station and that net control may ask other stations to relay.

I will now take check-ins from any station. (Comments for the net)

I'd like to thank everyone for checking into the net.

This is (your call sign), closing the net and returning the frequency back to normal amateur radio operation.

This is (YOUR CALLSIGN) out.

**NOTE to NCOs** – Thank you your time this evening! Please send the net name, the times and callsigns to [Emergency Coordinator](#) immediately following the net.
